406 BERNEDOODLES CONTRACT AND HEALTH GUARANTEE

This puppy is to the best of my knowledge in complete mental and physical health. I do recommend that you have your vet check out your new puppy within the first 72 hours of leaving our home. If something was missed by myself or my vet I need to be notified within the first 72 hours of this puppy leaving my home in order for you to bring the puppy back to me and receive a full refund. You are responsible for flights both directions, if you choose to send this puppy back because of something your vet found in the health check.

If there is any reason to have litigation involved in a dispute it will take place in Bozeman, Montana.

This puppy is sold with a congenital/genetic health guarantee. If in the first 2 years of his/her life a congenital/genetic disease appears and will need treatment, a check of up to \$2,000.00 will be sent to you when I receive a letter from your vet explaining the condition and that it is congenital/genetic disease. The check amount will depend on the cost of treatment(s). All vet fees will be paid upfront by the puppy/dog owner. Once I, the breeder, receive the receipts and diagnosis from the vet, checks will be sent out to cover the cost of what is described in this contract. Or, you may return the puppy to me for a full refund. This does not cover any joint problems. This contract does not cover hernias. Hernias are very common in the BMD breed and are not considered a health risk. If your puppy does have a hernia and you wish to have it fixed, the best time to do this is when he/she is spayed/neutered. I may, as the breeder, choose to pay for a second opinion if I feel like the vet may not be correct with the diagnosis.

You, from this point forward, are responsible for the physical and emotional wellbeing of this puppy. This contract does not cover illness due to foreign objects that your puppy may have ingested, nor does it cover physical injury. It also does not cover any sickness due to animal born/transmitted diseases. I recommend that you are very careful with what dogs you expose your puppy to.

We do not and cannot guarantee the color, size or coat type of any of our puppies. We do the best we can for making an educated guess, but that is all that it is. No breeder can guarantee this information when doing a cross like we are of a BMD to a Poodle.

This puppy has had the first set of shots but should not be exposed to dogs that you do not know their health history. And even then, it can be a risk.

I ask that you pay attention to what you are feeding the puppy as it can affect your dog's health. It is important that your puppy/dog have daily exercise but too long of runs or excessive jumping can cause joint problems.

This puppy is sold as a pet only and **will NOT** be used for breeding under any circumstances. If for some reason you would like to reconsider the "pet" part of this contract I need to be contacted to discuss this change and the steps needed to change to a "full" registration. With some litters, it is not an option to change to a "full" registration. If for some reason there is a "whoops", I'll need to know immediately and we will then make a plan for the upcoming litter. If you choose to breed this dog without permission it can and will be brought to court.

I need to have updates on this puppy because this is a new breed for us and it's really a new breed anywhere, so it is important for the sake of the breed and future litters that I have updates and feedback from you. Please send me messages or emails with pictures and a quick update on personality, how training is going, weight, coat, and the puppy/dogs over all personality and how it's fitting into your life. I need updates around 3 months, 6 months, 1 year and 2 years. I would enjoy more but I understand life is busy!

If for any reason you are unable to keep this puppy, I need to be notified immediately. We will ALWAYS take any of our puppies back at any time. We are small breeders and are genuinely concerned about each and every one of our puppies throughout their entire lives. We are always available for your dog at any point in its life. Please don't hesitate to contact us anytime.
